

Proposal for Association with HackCraft 3.0

for Innovation, Skill Development & Technical Collaboration

Greetings from HackCraft 3.0,

Global Institute of Technology and Management (GITM)

We are pleased to present this formal proposal for collaboration between HackCraft 3.0, GITM and your esteemed organization/community. This association is envisioned to create a structured platform for innovation, technical learning, and industry-academia engagement, while providing students with real-world exposure and professional development opportunities.

HackCraft 3.0 is the flagship annual technical initiative of GITM, designed to identify, nurture, and empower young innovators. The program focuses on problem-solving, research, and product-oriented development through mentorship, teamwork, and competitive challenges.

About HackCraft 3.0

HackCraft 3.0 is a two-month-long innovation program that brings together talented students from multiple institutions to work on practical, impact-driven technological solutions.

The event includes:

- Online registration, idea submission, and shortlisting
- Technical mentorship and guidance
- Prototype and solution development
- A 24-hour offline Grand Finale hackathon

Program Duration: February – March 2026

Grand Finale: March 28-29, 2026

Venue: GITM Campus

The most promising teams will be recognized and supported for further development and exposure.

Objectives of the Collaboration

The proposed association aims to:

- Promote technical skill development and innovation
- Encourage practical application of academic knowledge
- Strengthen industry-academia collaboration
- Support youth entrepreneurship and research culture
- Provide professional exposure to students
- Enable organizations to engage with emerging talent

Structure of Collaboration

The collaboration may be structured as follows, subject to mutual discussion:

- Event Venue: Provided by Global Institute of Technology and Management
- Participation: Students from GITM and partner institutions

- Technical Support: Mentorship, guidance, and knowledge sharing
- Resource Support: Tools, datasets, platforms, or expertise (if applicable)
- Sponsorship / Association: As mutually agreed

The detailed framework shall be finalized through consultation.

Scope of Association

Based on the nature of partnership, the organization may be involved in:

- Providing problem statements or real-world challenges
- Conducting workshops or technical sessions
- Participating in evaluation and jury panels
- Offering mentorship and expert guidance
- Supporting innovation through sponsorship or resources
- Facilitating internship, training, or placement opportunities

All roles and responsibilities shall be mutually defined.

Benefits Extended to the Partner Organization

The collaborating organization may receive the following benefits:

1. Visibility and Branding

- Logo placement on official event materials
- Branding on certificates and banners
- Presence on digital platforms and social media
- Recognition during ceremonies

2. Professional Engagement

- Interaction with skilled and motivated students
- Participation in technical sessions
- Jury or advisory roles
- Access to shortlisted participant profiles (if applicable)

3. Talent and Innovation Access

- Early identification of promising talent
- Exposure to innovative student projects
- Opportunity for long-term engagement

4. Institutional Recognition

- Formal acknowledgment as a Partner/Associate
- Appreciation certificate
- Public recognition of support

Financial and Resource Support

Support for HackCraft 3.0 may include:

- Financial sponsorship
- Technical resources
- Software/tools/licenses
- Infrastructure support
- Expert manpower

Customization and Flexibility

We understand that each organization operates under specific guidelines and priorities. Hence, this proposal is flexible and can be customized to align with your institutional goals, branding policies, and operational requirements.

Conclusion

We strongly believe that this association will result in a mutually beneficial partnership, contributing to student development, innovation promotion, and organizational outreach.

We look forward to your positive consideration and the opportunity to work together in making HackCraft 3.0 a successful and impactful initiative.

With sincere regards,

Devansh Singh
President, Team Sankalp | GITM
